

## New Zealand Emergo Train System Educator Faculty

We are pleased to announce the NZ ETS Educator Faculty has a new ETS Educator. Murray Mills, Ministry of Health, was presented with his Educator Certificate from the NZ ETS Educator Faculty on Monday 13 November. Murray has contributed and lead as a Senior Instructor since 2006 attending more than 25 exercises. Well done Murray and thank you for your continued ETS support.

The presentation took place before our most recent ETS Exercise Borderless Bugs. This was a pandemic exercise testing multi-agencies lead by public health responding to a possible pandemic scenario at Tauranga Hospital.
