An international Emergo Train System workshop was held in London on March 26 2014. The workshop was hosted by Public Health England/ETS United Kingdom and the aim of the workshop was to provide an opportunity for ETS Senior instructors and Educators and ETS faculty representatives to exchange ideas regarding the use of ETS. Over 40 Senior instructors and Educators from UK, Italy, Sweden, Portugal, The Netherlands, Denmark, Japan and Australia was participating.

A representative of each ETS faculty or country had a presentation of how ETS is used in their country.

The ETS Competence centre had a presentation of ETS updates and developments and research connected to ETS. In the afternoon a table

group discussion was held and in smaller groups the participants were discussing ideas for the future, what could be developed and how to develop the ETS network. PHE demonstrated an E-learning tool in which they use ETS.

International ETS workshop in London

All presentations from the workshop is available for all ETS Senior instructors and Educators on the Senior instructor page on the ETS website (requires a login). If you do not have a login, please register on www.emergotrain.com ■

More details about the Senior Instructor course and contact information is available on the ETS website: www.emergotrain.com ■

Gaye Hudson

It is with great sadness that we have announced the passing of one of our esteemed colleges, Gaye Hudson. Gaye completed her Senior instructor course at Mt Macedon, Victoria 2006. In 2008, she became one of the first five Educators in Australia. Gaye's endearing personality and 'never say never' attitude made her instrumental in the implementation of ETS in Australia. It was always a pleasure (and an adventure) to teach with Gaye, not only in NSW, but across the country. Gaye's dedication and selfless nature was always something that many others could only hope to attain and all who knew her regarded her with great respect and admiration. Our condolences and sympathy go out to her family and loved ones.
/ETS New South Wales

It is with great sadness we learned that Gaye Hudson passed away. Gaye attended the first Senior instructor course we held in Australia 2006. In 2008 she became Educator in the Australian Educator faculty. She used ETS a lot, in simulation exercises and teaching others to become Senior instructors. With her long professional skills and genuine interest in simulation exercises she was an important part of the ETS success in Australia. We met Gaye several times over the years in various places in the world. With her warm, open, generous and positive personality together with a great sense of humour she was very much appreciated by us. Our thoughts are with Gaye's family, colleagues and the ETS faculty in NSW.
