An Emergo Train System workshop was held by Zeeland Region in Slagelse, Denmark, on November 27. A representative from Zealand participated in the ETS Senior Instructor course in June and a project is now underway to translate and adapt the ETS material into Danish.

ETS will be used as a training and simulation tool in the region. A workshop was organized to create awareness of what ETS is and how it can be used. Twenty-five people from Zealand and Central Denmark attended. Staff from the ETS Competence Center were invited and the workshop included presentations and discussions about ETS as well as several simulation exercises to provide the participants with experience in an exercise.

More students from Denmark will participate in the international Senior Instructor course to be held next year.

Senior instructor courses

Three Senior Instructor courses were held in the autumn of 2013. The total number of certified Senior Instructors worldwide is now 973 from 30 different countries.

In September ETS Japan held a Senior Instructor course in Toyama with 11 students.
